

To Whom It May Concern,

NEFMC must do more to preserve fleet diversity. I am in favor of restoring baseline limits to our ACE. I realize this will make the pool to lease from smaller, however it will preserve Diversity. It is extremely hard to call this new system fair. Fishers in harbors where infrastructure is better, fishers fishing more efficient gear and fishers with more efficient boats all have a huge advantage with a sector system. Please do more to keep a diverse fleet.

Thanks Chuck Etzel.
